### Astaxanthin,

one of nature's most powerful antioxidants, protects skin from free radical damage.

### Bilberry extract

is one of the richest sources of anthocyanins, a type of flavonoid with strong antioxidant benefits.

### Why do thousands of people love Astaxanthin & Bilberry Extract?

- It fights the oxidative stress that can occur in every organ in our bodies, including skin, brain, heart, and eyes.
- It provides complete antioxidant protection to our cells from the inside out.
- It's produced in accordance with strict EU safety standards.

### Where does astaxanthin come from?

Astaxanthin is a naturally occurring carotenoid that's found in the microalgae *H.pluvialis*. While the algae are green in its normal habitat, when exposed to environmental stressors, it responds by producing astaxanthin, which turns the microalgae red. *H.pluvialis* algae are found in freshwater pools around the world and are particularly characteristic for the Swedish archipelago.

# HEALTHY SKIN STARTS FROM WITHIN

Whenever you are spending time outside, it's crucial to protect our skin. Sun exposure is the first cause of premature ageing and can cause skin discolourations. Our Astaxanthin & Bilberry Extract is a combination of powerful antioxidants that will protect your skin from the inside-out.
