SCIENCE BEHIND

Potent wrinkle correcting trio

With the passing time, the aggressors within the skin contribute to the degradation of collagen, while enzymes degrade the hyaluronic acid resulting in the appearance of wrinkles. And NovAge Ecollagen set was designed to help with exactly that!

PATENTED TRI-PEPTIDE TECHNOLOGY stimulates collagen production to significantly boost its levels and correct wrinkles over time.

LOW MOLECULAR WEIGHT HYALURONIC ACID, easily absorbed by the skin, with molecules that can attract and hold onto up to 1000x their weight in water, instantly smoothing out wrinkles.

EDELWEISS PLANT STEM CELL EXTRACT, like a guardian of youthfulness, helps protect both collagen and hyaluronic acid from degrading to slow down the skin-ageing process.

BOOST

Power up your skin's beauty

Serum is designed to be the booster of your routine used before moisturiser. Packed with active and hydrating ingredients, its molecules are smaller which enables deeper skin penetration. The texture is also lighter and more fluid. **This makes it easier to absorb quickly and efficiently, so that the powerful actives can get to work immediately.** You can also additionally energise the skin by gently tapping your fingertips on your skin after applying your favourite NovAge serum.

SKIN CHALLENGES: ROUGH SKIN AND VISIBLE PORES

6% AHA

(featuring glycolic acid 3% and lactic acid 3%)

Alpha hydroxy acids (AHA) are naturally occurring acids that help to boost the natural exfoliation process in the skin by removing dry, dead skin cells at the surface of the skin to allow new cells to form. This helps restore radiance, minimise the appearance of fine lines, wrinkles, enlarged pores, age spots and blemishes.
