Resolution: I will give it my 100% every day

Life is hectic, days move fast. When each moment is filled with meetings, deadlines, and social duties, it's easy to feel like there simply aren't enough hours in a day, or days in a week, to check everything off of your to-do list - let alone find time to prioritise the routines you need to keep your mental and physical health in tip top shape.

It's important to be kind to ourselves and practice self-care with anything that keeps us looking and feeling on top of the world, whether it be a pampering skin care routine, a heart-pumping workout, a deliciously nourishing meal - or treating yourself to a daily dose of vitamins and nutrients that your body needs to keep your energy levels running on full.

Resolution: I won't forget the fish

Our bodies do not produce Omega 3 fatty acids, so they must be obtained from food sources. However, many individuals do not get enough Omega-3 in their diet - even though Omega 3 deficiency is linked to increased risk of cardiovascular disease, cancer, diabetes, cognitive and visual impairment. Which is why we've developed a fish oil supplement to help you top up these essential acids.

OUR FISH OILS ARE
CERTIFIED SUSTAINABLE
BY FOS

The human brain is comprised mostly of fat, and about 15-20% of that fat in the brain is made of DHA. But what is DHA, you might ask? It's one of the fatty acids that is a component of Omega 3 and can be found most prominently in oily fish.

BUILD YOUR ROUTINE

Omega-3 is a family of fats that play a key role in our health and wellbeing. Wellness by Oriflame Omega 3, developed with sustainably acquired fish oil, contains the essential fatty acids that your body requires to help support brain, heart, and eye health.

Resolution: I will guard myself from harm

Antioxidants have the ability to protect healthy cells from oxidative damage caused by harmful free radicals, which can be produced by things like poor diet, and environmental factors such as UV exposure, air pollutants, and tobacco smoke.

BUILD YOUR ROUTINE

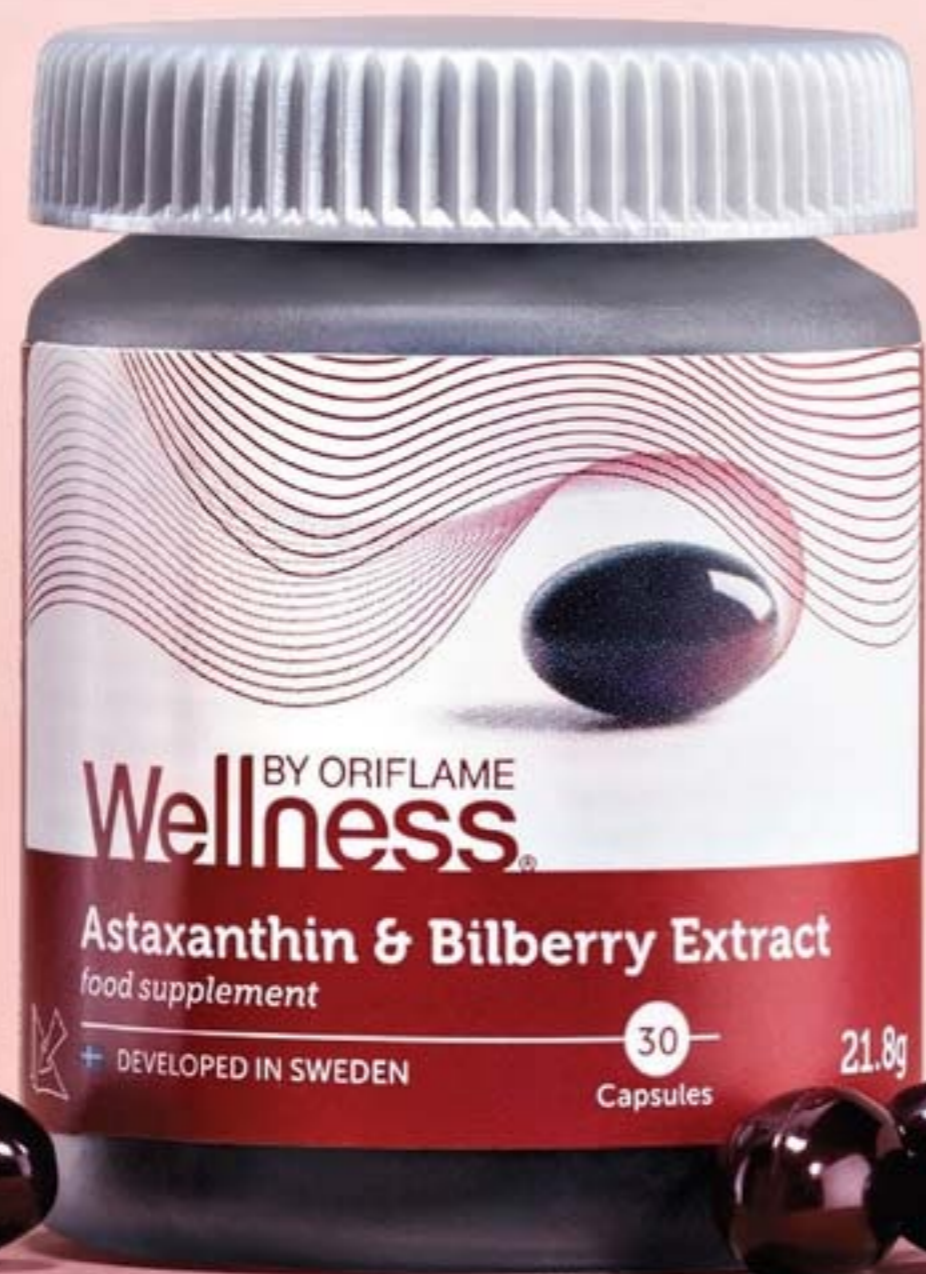

Astaxanthin & Bilberry Extract helps combat damaging oxidative stress caused by excessive exposure to harmful free radicals. It does so by providing antioxidant protection to our cells, from the inside-out.

Astaxanthin

- Naturally cultivated
- Unique molecular structure allowing it to span the entire cell membrane, providing antioxidant protection from the inside-out

Bilberry extract

- Contains several different types of antioxidants, among them anthocyanins
- Vitamin C
- Vitamin E

Here to support skin's natural structure

Two vital substances for smooth and supple skin are collagen and hyaluronic acid, both found naturally in the skin. Collagen (protein fibres) is responsible for the proper structure and shape while hyaluronic acid (water-attracting molecules) creates a supportive liquid cushion around it. Over time both degenerate and break down. So, it is crucial to supplement them to keep your skin wrinkle-free.
