SKIN PROBLEM: Dull skin with visible signs of ageing

OUR SOLUTION: Exquisite formula featuring genuine Diamond Powder, White Truffle and skin-brightening active helps reduce uneven pigmentation, smooth wrinkles and lift facial contours while giving your skin a youthful radiance.

PRO TIP!

Always apply your face cream with circular, upwards motion to counter gravity and help you fight loss of firmness. Don't stop at the jawline - apply the cream on your neck as well, as the skin there is very thin and more prone to wrinkling.

Let your skin blossom with radiance

As seasons change, your skin may act out a little. Not only is it dull after long, winter months, you may also observe more breakouts and discolouration. Beautify your skin from the inside out with our quartet of powerhouse antioxidants and let it blossom just like the world around you.

Which antioxidant helps improve skin's appearance?

- A ASTAXANTHIN
- B VITAMIN C
- C VITAMIN E

Correct answers:

- A
- B
- C
- A, B and C!

Astaxanthin improves skin's elasticity by strengthening and supporting collagen and protects skin from UV rays. Vitamin C helps out with discolourations, while Vitamin E also shields it from free radical damage.

BILBERRIES

Contain a very potent group of antioxidants called anthocyanins which belong to the family of flavonoid-related polyphenols.

ASTAXANTHIN

Astaxanthin – a naturally-occurring plant compound that comes from microalgae – improves elasticity in the skin by strengthening and supporting collagen. It also protects skin from the sun's UV rays!

Astaxanthin and Bilberry Extract is a combination of antioxidants from Astaxanthin, grown from microalgae commonly found in the Stockholm archipelago and berries found in Swedish forests. Taking 1 capsule per day can assist in defending against the negative effects of free radicals.

- A** IT HELPS YOU ACHIEVE BETTER RESULTS

With the first day of spring around the corner, your body is about to experience a real roller coaster of changing weather conditions, making you more prone to seasonal infections. Help your body transition smoothly between seasons and fuel it with essential fatty acids!

What are other benefits of Omega 3 fatty acids, besides supporting your immunity?

- A** BETTER MEMORY AND CONCENTRATION
- B** STRONGER HAIR AND NAILS
- C** SUPPORTED CARDIOVASCULAR HEALTH

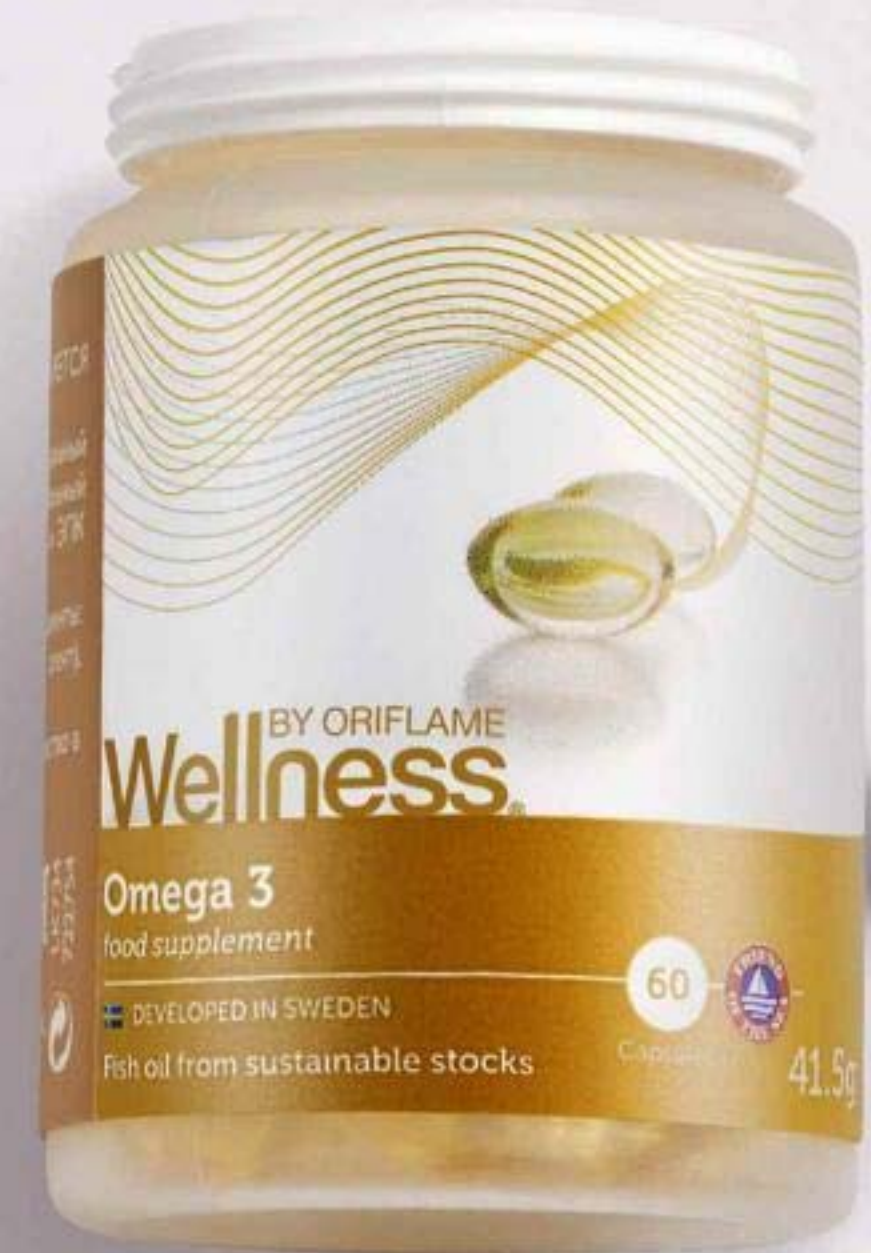

Correct answers:

- A C** A and C!
