## Daily care and protection

The skin on your face is exposed to many external aggressors, sun exposure being one of them. Protecting it with SPF should always be a part of your routine. NovAge day creams all have SPF ranging from 15 to 35. Use the spatula to scoop the right amount of cream and spread it gently with your fingertips. Check the end of the skin care section to see how you can maximise the effects with SkinPro Sonic 3-in-1 System.

# Reclaim your facial contour

With years passing, the skin's ability to synthesise collagen and elastin diminishes. That results in loss of firmness and contour definition. Aspartolift Technology in NovAge Ultimate Lift set rejuvenates the skin's natural production of collagen and elastin to bring back those lost features. The patented technology works like retinol, but without the unwanted side effect.
