# It all started with a *dream*

A dream shared by brothers, Jonas and Robert of Jochnick, and a friend of theirs, Bengt Hellsten. Three Swedish entrepreneurs envisioned a company making high quality beauty products inspired by nature, available and affordable to everyone.

Over time they created a business and community of passionate people that would extend across the world, inspire others, and make lives better for the many. They fulfilled their dream, and inspired others to follow.

Today, Oriflame has grown to a world-wide company and community with millions of independent Brand Partners, in more than 60 countries, who share the dreams of our founders to sell Oriflame beauty and wellness products across the globe.

## Towards a better tomorrow

We were born in Sweden in 1967, based on a profound belief that all people deserve the same opportunities in life to reach their full potential.

Today, we continue to stay true to the dream of our founders. We inspire others, provide opportunities, and create a better tomorrow for our community by always striving towards constantly improving ourselves and our offering.

With this said, we are happy to welcome you to two exciting launches. The first is the new and improved printed Oriflame catalogue. Be in touch with the products you love, more engaging content, and a new design that complements your online shopping experience. All to ensure that it fits all your needs.

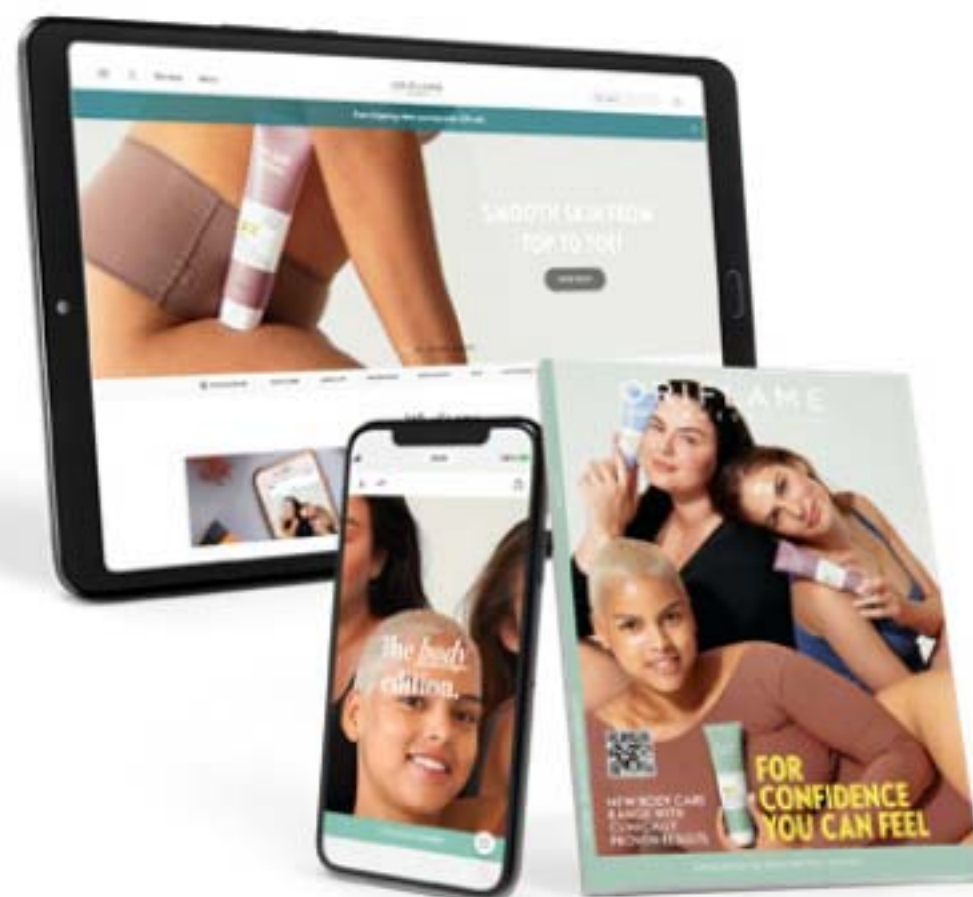

Also, this transition gives us a much more effective use of paper with less waste, saving us resources, towards a better tomorrow.

In this campaign, we also bring you The Body Edition – our new performing body care range inspired by skin care. Designed for efficacy, to reduce cellulite, firm the skin and treat rough or uneven skin – of course with clinically proven results!

# COOL AND RE-HYDRATE YOUR SKIN AFTER A DAY IN THE SUN

## COOL'N SOOTHE TEXTURE

After spending time in the sun, our skin can feel tender and overheated. The After-Sun Jelly has been developed with a unique texture that brings an instant, long-lasting cooling sensation to the skin, of up to -2 degrees for up to 20 minutes. The sensorial texture is based on lecithin, a molecule that has a similar texture to cell membranes in our skin, which gives it great affinity with the skin.

- Instantly soothes sun exposed skin
