TO LEARN HOW TO USE RETINOL

# PROTECT YOUR SKIN FROM PREMATURE AGEING

Numerous environmental and lifestyle factors can contribute to skin ageing. Reach for solutions designed to target those concerns and protect your skin to keep it younger-looking for longer.

**RETINOL**  
Known for its potency, retinol works to increase the skin turnover rate and promote collagen synthesis to smooth out the skin. It works deep below the skin's surface at cellular level to help reduce deep wrinkles.

**SUN PROTECTION**  
UV rays are among the most common factors contributing to skin ageing. Delay that process by using strong sun protection, together with ProCeuticals treatment and on top of your day cream when the sun gets more intense.

**SKIN CHALLENGES:**  
fine lines, deep wrinkles, uneven skin texture

**Younger-looking skin**  
(84% agree after 14 days, 85% agree after 28 days)\*

**Reduces the appearance of deep wrinkles**  
(91% agree after 28 days)\*

## Protect your skin from sun damage

As much as we love to enjoy our time outside, it's crucial to protect our skin. Sun exposure is the first cause of premature ageing and can cause skin discolourations. Our Astaxanthin & Bilberry Extract is a combination of powerful antioxidants that will protect your skin from the inside-out.

Astaxanthin, one of nature's most powerful antioxidant, protects skin from free radical damage.

Bilberry extract is one of the richest sources of anthocyanins, a type of flavonoid with strong antioxidant benefits.

Vitamin C & E protect skin from oxidative stress.

Take one capsule a day and don't forget your sunscreen!
